PART 1: INVESTOR SUITABILITY ASSESSMENT (ISAF)

This Investor Suitability Assessment Form (ISAF) allows KAF Investment Funds Berhad (KAF IF) and its Unit Trust Consultant (UTC) to gather information and recommend the unit trust funds distributed by KAF IF that suit your particular circumstances.

The information you provide will form the basis of the recommendation. It is important to provide current, accurate, and complete information to ensure that suitable unit trust funds are recommended according to your investment needs and objectives. You should also understand the risks associated with investing all or a significant portion of your available funds, including savings and retirement accounts, in a single investment product.

1	Product Risk Rating 1

Note:
Product Risk Rating is used as a guide for assessment of investment suitability.

Investment involves risks. Investors should note that the price of units and distributions payable, if any, may go down as well as up. Generally, low risk funds have the possibility of lowest volatility in generating potential gain and downside risk. In contrast, higher risk funds are perceived to greater gains or losses to the investment capital.

Investors should invest in any product that they are satisfied with, and it is suitable for them having regard to their personal circumstances, including knowledge and experience, investment objectives and horizon, and risk tolerance.

Past performance is not necessarily a guide for future performance. Return may vary from year to year. Please read and understand the key risks of the product highlighted in the Product Highlight Sheet. If investors are unable to make their own evaluation, they are advised to consult professional advisers.
