PRODUCT HIGHLIGHTS SHEET

KAF DANA AL-IDDHIKHAR

Name of Fund	KAF Dana al-Iddhikhar.
Fund Category	Money market (Islamic).
Fund Type	Income.
Commencement Date	6 October 2005.
Capital Protected / Guaranteed	No.

PRODUCT SUITABILITY

WHO IS THE PRODUCT SUITABLE FOR?

This Fund is suitable for investors who:

- are conservative in nature in terms of Shariah-compliant investment;
- prefer a consistent reasonable and stable level of return on Shariah-compliant investment;
- prefer a lower level of investment risk; and
- have a short-term investment horizon.

KEY PRODUCT FEATURES

WHAT ARE YOU INVESTING IN?

The Fund seeks to provide a regular stream of income by investing primarily in Islamic money market instruments and other fixed income securities, which comply with Shariah requirements.

Investment Strategy

Investment policy and strategy

The Fund will invest at least 90% of its NAV in a diversified portfolio of short-term sukuk, short-term Islamic money market instruments and short-term Islamic deposits. Alternatively, the Fund may also invest up to 10% of its NAV in high quality sukuk which have a remaining maturity period of more than 397 days but fewer than 732 days.

The Fund shall invest in the following Shariah-compliant securities:

- Islamic money market and sukuk with a minimum local short-term credit rating of P2 by RAM or MARC-2 by MARC;
- sukuk with a minimum local long-term credit rating of A3 by RAM or A- by MARC;
- sukuk issued or guaranteed by the Malaysia's federal government, BNM or other related Malaysian government agencies or any state government of Malaysia;
- sukuk issued or guaranteed/endorsed by banks or other licensed financial institutions;
- Islamic deposits with banks or other licensed Islamic financial institutions;
- any other form of investment/instruments that comply with Shariah requirements and are approved by the SACSC and/or the Shariah Adviser and in accordance with Shariah requirements from time to time.

The credit/default risk is limited to the extent that any sukuk invested must have credit ratings of no lower than A3 by RAM or A- by MARC for long-term instruments and P2 by RAM or MARC-2 by MARC for short-term instruments. In the event that a sukuk is placed under a negative outlook by any rating agencies, the Manager will immediately assess its continued investability and may take the necessary steps to mitigate any negative impact to the Fund. Should the instrument be downgraded below the minimum investment grade, the Manager will divest the instrument. However, in order to protect the Fund's best interest, the Manager has the discretion to take into consideration all relevant factors that affect the fair value of the investment via an internal credit assessment process before deciding on the manner and time frame of the sale.

The Fund's structure is such that it is confined to instruments of short duration of maturity in order to minimise the impact of fluctuations in interest rate on the Fund's performance over the short-term while the credit risks it may face are mitigated by strict limits on concentration of investments, i.e. diversification and due diligence in

the credit assessments by ensuring high credit ratings as mentioned above. Commensurate to this requirement for high liquidity and low tolerance to credit risk, the overall risk profile of the Fund is low.

The Fund seeks to achieve its objective by investing primarily in short-term Islamic money market instruments and short-term sukuk. The Manager will decide which instrument or security to buy based primarily on their yield, relative to their credit quality and the period to maturity. The Fund will at all times place/invest its cash in Islamic money market deposits/instruments and sukuk (listed or unlisted), which are rated by RAM, MARC or other approved rating agencies.

Some of the principal valuation measures used by the Manager for the analysis of Islamic money market instruments and sukuk are as follows:

- Yield to maturity;
- Yield to first call;
- Duration; and
- Other applicable measures as necessary.

Benchmark

Malayan Banking Berhad ("Maybank") one (1) month General Investment Account ("GIA") rate.

Note:

- *The risk profile of the Fund is different from the risk profile of the benchmark;*
- *The Fund assumes a higher risk compared to the benchmark; and*
- *As a result of the higher risk assumed by the Fund, investors should expect returns of the Fund to outperform that of the benchmark.*

Investment in the Fund is not the same as placement in an Islamic deposit with a financial institution.

There are risks involved and investors should rely on their own evaluation to assess the merits and risks when investing in the Fund.

Distribution Policy

Income, if any, will be distributed on a monthly basis. All such distribution will be reinvested into the Fund.

KEY RISKS

WHAT ARE THE KEY RISKS OF THIS INVESTMENT?

- **Interest rate risk**

Interest rate risk is crucial in a sukuk fund since sukuk portfolio management depends on forecasting interest rate movements. Valuation of sukuk move inversely with interest rates and the degree of sensitivity to interest rates is a function of sukuk maturity and profit payment as well as the level of interest rates. In the event of rising interest rates, valuation of sukuk will generally decrease and vice versa. Corporate profits may be affected by high interest rates, hence affecting the NAV of the Fund. Therefore, interest rate risk should be low for short-term sukuk, moderate for intermediate term sukuk and high for long-term sukuk. Interest rate risk is mitigated by exercising prudence in the selection of investments, strict monitoring of those investments and ensuring sufficient diversification of the Fund's investments. The above interest rate is a general economic indicator that will have an impact on the management of the Fund regardless whether it is an Islamic unit trust fund or otherwise. It does not in any way suggest that the Fund will invest in conventional financial instruments. All investments carried out for the Fund are in accordance with Shariah requirements.

- **Credit/default risk**

Credit risk refers to the possibility that the issuer of a sukuk will not be able to make timely payments of profit on the profit payment date or principal payment on the maturity date. The risk is graded by credit rating agencies that rate the issuer's ability to meet these obligations in a timely manner. Failure to comply with conditions attached to the issue or to make a payment on time will result in an event of default with serious consequences for the issuer and loss to the investor. A default by the issuer will result in a fall in the value

of sukuk which ultimately reduced the NAV of the Fund. The lower the rating, the greater the risk that the sukuk issuer will default. All things being equal, the lower a sukuk's credit rating, the higher its yield should be to compensate investors for assuming higher risk. Mitigating credit risk involves diversification of the Fund's investments.

- **Shariah status reclassification risk**

This risk refers to the risk of a possibility that the currently held sukuk or Islamic money market instruments or Islamic deposits invested by the Fund may be declared as Shariah non-compliant by the relevant authority or the Shariah Adviser. If this occurs, the Manager will take the necessary steps to dispose of such fixed income securities or money market instruments or deposits.

Please be advised that if a Unit Holder invests in units through an IUTA which adopts the nominee system of ownership, the Unit Holder would not be considered to be a Unit Holder under the deed and the Unit Holder may consequently not have all the rights ordinarily exercisable by a Unit Holder (for example, the right to call for a Unit Holder's meeting and to vote thereat and the right to have the Unit Holder's particulars appearing in the register of Unit Holders of the Fund).

VALUATIONS AND EXITING FROM INVESTMENT

HOW OFTEN ARE VALUATIONS AVAILABLE?

The Fund will be valued at least once every Business Day. The valuation of the Fund will be conducted at the close of Bursa Malaysia for that Business Day.

From time to time, Unit Holders will be able to obtain the unit price of the Fund as published in the major newspaper and at our website, www.kaf.com.my to monitor their investments. Unit Holders may also obtain the latest NAV per unit by contacting the Manager directly.

HOW CAN YOU EXIT FROM THIS INVESTMENT AND WHAT ARE THE RISKS AND COSTS IN DOING SO?

Unit Holders may redeem their investments in the Fund by completing the prescribed repurchase request form and returning it to the Manager before the cut-off time of 4:00 p.m. on a Business Day. Any repurchase request received after 4:00 p.m. on a Business Day will be considered to be received on the next Business Day.

There are no restrictions on the number of units a Unit Holder can redeem out of his investments and no restrictions on the repurchase frequency.

If the repurchase request leaves a Unit Holder with less than 1,000 units or such other lower quantity as the Manager may decide from time to time (minimum investment balance), the Manager has the option to liquidate the balance of the units held in the Unit Holder's account and forward the proceeds to the Unit Holder.

Repurchase proceeds will be paid within seven (7) Business Days from the date on which the repurchase request is received by the Manager.
