PRODUCT SUITABILITY

WHO IS THE PRODUCT SUITABLE FOR?

This Fund is suitable for investors who:

- a) require liquidity;
- b) seek reasonable returns that commensurate with the low risks investment; and
- c) prefer a short term investment horizon.

KEY PRODUCT FEATURES

WHAT ARE YOU INVESTING IN?

The Fund aims to provide investors with liquidity while providing reasonable returns by investing its assets in Islamic deposits.

Investment Strategy

The Fund seeks to achieve its investment objective by investing in a portfolio of Islamic deposits placed with financial institutions in Malaysia. It will invest at least 90% of its NAV in placement of short-term Islamic deposits.

In managing the Fund, the Manager will seek out financial institutions that are able to offer attractive (i.e. rates at or above the benchmark rate) Islamic deposit rates. The Manager will construct a portfolio of Islamic deposits with different maturity profiles for the liquidity requirement while maximizing the portfolio returns.

The Fund's portfolio will be structured as follows:

At least 90% of NAV

- Investments in short-term Islamic deposits placed with financial institutions.

The Fund is actively managed whereby its fund management strategy will depend on the interest rate environment and the anticipated redemption requests by Unit Holders.

The Manager's selection of the financial institutions is based on its internal tiering rule. The Manager shall assess the financial health of the financial institutions taking into consideration the overall capacity of a financial institution to meet its financial obligations and assign a particular tier to which the Manager believe suitable. The tier assigned to a financial institution shall be reviewed by the Manager from time to time.

In its risk mitigating approach, the Manager will closely monitor the financial health of the financial institutions and any developments pertaining thereto. Should there be any adverse developments affecting the financial health of the financial institutions in which the Fund places Islamic deposits with, such position shall be unwind within a reasonable time frame. In such event, due to the premature termination of placement, the Fund may not entitle to the Islamic deposit rate as anticipated resulting in the loss of potential return.

In addition, the Manager is practicing prudent liquidity management in a timely and cost-effective manner. The Manager continuously monitors the cash threshold in the Fund to ensure that the Fund is able to meet the redemption requests in an orderly manner. If there is a need and the Manager deems it is appropriate, the Fund will seek an Islamic financing facility on a temporary basis to meet such redemption requests. The Manager may also engage with the large Unit Holders to give notice in advance if they plan to make substantial redemptions of their investments.

Investment in this Fund is not the same as placement in an Islamic deposit with a financial institution. There are risks involved and investors should rely on their own evaluation to assess the merits and risks when investing in this Fund.

KEY RISKS

WHAT ARE THE KEY RISKS OF THIS INVESTMENT?

Specific risks of the Fund

- **Credit and default risk**

This refers to the creditworthiness of the financial institutions and its expected ability to make timely payment of profit and/or principal. Default happens when the financial institutions are not able to make timely payment of profits and/or principal on the maturity date.

- **Interest rate risk**

The returns from the Fund's placement in Islamic deposits may be affected in response to the fluctuations in interest rates environment. The return of placement of Islamic deposits moves in tandem with fluctuations in interest rates. When interest rates rise, profits for any new placements in Islamic deposits will also increase, and vice versa. However, the Fund may experience opportunity loss should the Fund unable to unwind its current position of placement on time during the rising interest rate.

The interest rate is a general indicator that will have an impact on the management of funds regardless of whether it is an Islamic unit trust fund or otherwise. It does not in any way suggest that this Fund will invest in conventional financial instrument. All investments carried out for this Fund are in accordance with Shariah requirements.

- **Shariah status reclassification risk**

This risk refers to the risk of a possibility that the currently held Islamic deposits placed by the Fund may be declared as Shariah non-compliant by the relevant authority or the Shariah Adviser. If this occurs, the Manager will take the necessary steps to withdraw such deposits.

Please be advised that if a Unit Holder invests in units through an IUTA which adopts the nominee system of ownership, the Unit Holder would not be considered to be a Unit Holder under the deed and the Unit Holder may consequently not have all the rights ordinarily exercisable by a Unit Holder (for example, the right to call for a Unit Holder's meeting and to vote thereat and the right to have the Unit Holder's particulars appearing in the register of Unit Holders of the Fund).

VALUATIONS AND EXITING FROM INVESTMENT

HOW OFTEN ARE VALUATIONS AVAILABLE?

The Fund will be valued at least once every Business Day. The valuation of the Fund will be conducted at the close of Bursa Malaysia for that Business Day.

From time to time, Unit Holders will be able to obtain the unit price of the Fund as published in the major newspaper and at our website, www.kaf.com.my to monitor their investments. Unit Holders may also obtain the latest NAV per unit by contacting the Manager directly.

HOW CAN YOU EXIT FROM THIS INVESTMENT AND WHAT ARE THE RISKS AND COSTS IN DOING SO?

Unit Holders may redeem their investments in the Fund by completing the prescribed repurchase request form and returning it to the Manager before the cut-off time of 3:00 p.m. on a Business Day. Any repurchase request received after 3:00 p.m. on a Business Day, will be considered to be received on the next Business Day.

There are no restrictions on the number of units a Unit Holder can redeem out of his investments and no restrictions on the repurchase frequency.

If following the repurchase request leaves a Unit Holder with less than 1,000 units or such other lower quantity as the Manager may decide from time to time (minimum investment balance), the Manager has the option to liquidate the balance of the units held in the Unit Holder's account and forward the proceeds to the Unit Holder.

Redemption proceeds shall be paid on the next business day[#] (T+1) after receipt by the Manager of the request to repurchase before the cut-off time of 3:00 p.m. Such redemption requests are deemed received only if all documents and forms received by the Manager are duly and correctly completed.

In the event of any technical difficulties beyond the Manager's control or should the redemption request result in the sale of assets which cannot be liquidated at an appropriate price or on adequate terms and is as such not in the interest of existing Unit Holders, redemption monies may be paid at any time not later than seven (7) Business Days after receipt by the Manager of the request to repurchase units or such other period as may be permitted by the relevant authorities from time to time.

[#]These are the working days when the Manager is open for business.
