PRODUCT HIGHLIGHTS SHEET

KAF SUKUK FUND

Name of Fund	KAF Sukuk Fund.
Fund category	Sukuk.
Fund type	Growth.
Commencement date	1 November 2013.
Capital protected / guaranteed	No.

PRODUCT SUITABILITY

WHO IS THE PRODUCT SUITABLE FOR?

This Fund is suitable for investors with a low to medium risk profile seeking capital growth over the medium to long term.

KEY PRODUCT FEATURES

WHAT ARE YOU INVESTING IN?

The Fund seeks to achieve capital growth in the medium to long term by investing primarily in sukuk.

Investment Strategy

The Fund seeks to achieve its objective by investing in a diversified portfolio of RM denominated sukuk issued in Malaysia. For the avoidance of doubt, the sukuk portfolio of the Fund may contain sukuk issued by issuers domiciled in Malaysia or out of Malaysia.

The Fund will only invest in:

- (1) sukuk with a minimum short term credit rating of P2 (by RAM) or MARC2 (by MARC) or a long-term credit rating of A3 (by RAM) or A- (by MARC) or an equivalent rating by any other recognized foreign credit rating agencies; and/or
- (2) sukuk issued or guaranteed by issuers or guarantors with a minimum short term credit rating of P2 (by RAM) or MARC2 (by MARC) or a long-term credit rating of A3 (by RAM) or A- (by MARC) or an equivalent rating by any other recognized foreign credit rating agencies.

Should the credit rating of the sukuk, the issuer or the guarantor fall below the minimum credit rating, the Manager may dispose of those investments in the best interest of Unit Holders. The proceeds from the disposal of those investments will be invested in permitted investments in line with the investment objective of the Fund. The tenure of the sukuk held by the Fund will vary depending on the Manager's view of the future yield curve and will be adjusted accordingly.

The Fund's sukuk investments will be placed in RM denominated sukuk issued in Malaysia that includes but are not limited to:

- (i) government sukuk;
- (ii) corporate sukuk; and
- (iii) Islamic commercial papers.

Any balance of the NAV not invested in sukuk will be invested in Islamic deposits, Islamic money market instruments or Islamic collective investment schemes. The Manager will only invest in Islamic collective investment schemes which invest in RM denominated sukuk issued in Malaysia. Any Shariah-compliant investments of the Fund other than sukuk and Islamic collective investment schemes are purely for liquidity purposes while awaiting favourable sukuk investments.

It is the intention of the Manager to retain and reinvest the profits earned from the Fund's permitted investments in accordance with the Fund's investment policy and strategy to achieve the objective.

Asset allocation

The Fund will invest a minimum of 70% of NAV in sukuk and a maximum of 30% of NAV in either Islamic collective investment schemes, Islamic deposits or Islamic money market instruments.

Benchmark

RAM-Quant MGS Index (All Durations).

Note: The risk profile of the Fund is different from the risk profile of the benchmark.

Distribution Policy

As the Fund's objective is to provide capital growth, the Manager does not intend to distribute income.

KEY RISKS

WHAT ARE THE KEY RISKS OF THIS INVESTMENT?

Specific risks of the Fund

- **Credit/default risk**

Investments in sukuk are subject to the risk of non-payment and/or untimely payment of the principal amount and/or the profits when they fall due. Credit/default risk is assessed based on the issuer's overall ability to meet its obligations when they fall due. For example, an issuer suffering an adverse change in its financial condition could result in the credit rating of the sukuk lowered, leading to greater price volatility of the sukuk. A downgrade of the credit rating of a sukuk may have an effect on the sukuk's liquidity, making it more difficult to sell and greater volatility on the Fund's valuation.

However, such risk can be mitigated by taking appropriate actions after vigorous credit analysis and having regular updates on the business profile and the financial position of the sukuk issuer.

The Fund may invest in Islamic deposits with various financial institutions or in Islamic money market instruments. As such, the Fund will be exposed to the risks of change of financial conditions of various financial institutions which may affect its creditworthiness. This is the risk of the financial institution defaulting on the payment of principal and/or profit. These events can lead to loss of capital and/or delayed or reduced income for the Fund resulting in a reduction in the value of the Fund.

- **Interest rate risk**

This risk refers to how the change in the interest rate environment affects the performance of the sukuk portfolio of the Fund. In the event of a rising interest rate environment, the valuation for sukuk may generally decrease, and vice versa. In addition, sukuk with longer maturity and lower profit rates are more sensitive to interest rate changes. This risk may be mitigated via the management of the duration of the sukuk portfolio.

The above interest rate is a general economic indicator that will have an impact on the management of the Fund regardless whether it is an Islamic unit trust fund or otherwise. It does not in any way suggest that the Fund will invest in conventional financial instruments. All investments carried out for the Fund are in accordance with Shariah requirements.

- **Liquidity risk**

This risk refers to the possibility that the sukuk and Islamic money market instruments held by the Fund cannot be readily sold at or near its fair value due to insufficient trading volume. This in turn may adversely affect the value of the Fund. To mitigate liquidity risk, the Manager will maintain a diversified portfolio in terms of the tenure and the issuers of the sukuk or Islamic money market instruments. Furthermore, the Manager will ensure that the Fund will hold adequate level of Islamic liquid assets (Islamic deposits and/or Islamic money market instruments) to serve as buffer for meeting short term liquidity requirements.

- **Reinvestment risk**

As it is the Manager's intention to reinvest proceeds from the sukuk held by the Fund to achieve the objective of the Fund, there is a risk that the proceeds may be reinvested into sukuk which may provide lower profit rates than previously earned.

- **Shariah status reclassification risk**

This risk refers to the risk of a possibility that the currently held sukuk or Islamic money market instruments or Islamic deposits invested by the Fund may be declared as Shariah non-compliant by the relevant authority or the Shariah Adviser. If this occurs, the Manager will take the necessary steps to dispose of such fixed income securities or money market instruments or deposits.

Please be advised that if a Unit Holder invests in units through an IUTA which adopts the nominee system of ownership, the Unit Holder would not be considered to be a Unit Holder under the deed and the Unit Holder may consequently not have all the rights ordinarily exercisable by a Unit Holder (for example, the right to call for a Unit Holder's meeting and to vote thereat and the right to have the Unit Holder's particulars appearing in the register of Unit Holders of the Fund).

Performance review:

For the latest financial year, the Fund registered a return of 5.08% whilst the benchmark recorded a return of 6.59%. The underperformance was attributable to the Fund's defensive strategy in managing the credit rating and medium duration of the portfolio.

Since its inception, the Fund recorded a total return of 71.14% outperforming its benchmark, which recorded a total return of 68.13%.

Distribution record:

There were no distributions, bonuses or splits for the Fund for the past three financial years.

Portfolio turnover ratio (PTR)

	Financial year ended 31 August		
	2025	2024	2023
PTR	0.67 times	0.66 times	0.41 times

The PTR for the latest financial year was higher than the previous financial year due to a decrease in the average NAV.

VALUATIONS AND EXITING FROM INVESTMENT

HOW OFTEN ARE VALUATIONS AVAILABLE?

The Fund will be valued at least once every Business Day. The valuation of the Fund will be conducted at the close of Bursa Malaysia for that Business Day.

From time to time, Unit Holders will be able to obtain the unit price of the Fund as published in the major newspaper and at our website, www.kaf.com.my to monitor their investments. Unit Holders may also obtain the latest NAV per unit by contacting the Manager directly.

HOW CAN YOU EXIT FROM THIS INVESTMENT AND WHAT ARE THE RISKS AND COSTS IN DOING SO?

Unit Holders may redeem their investments in the Fund by completing the prescribed repurchase request form and returning it to the Manager before the cut-off time of 4:00 p.m. on a Business Day. Any repurchase request received after 4:00 p.m. on a Business Day will be considered to be received on the next Business Day.

There is no restrictions on the repurchase frequency or the number of times a Unit Holder can make repurchase request.

The minimum repurchase amount is 10 units or RM1,000.00 whichever is the lower value in term of RM, or such other lower amount as the Manager may accept from time to time.

If following the repurchase request leaves a Unit Holder with less than 10 units or RM1,000.00, whichever is the lower value in term of RM, or such other lower amount as the Manager may decide from time to time (minimum investment balance), the Manager has the option to liquidate the balance of the units held in the Unit Holder's account and forward the proceeds to the Unit Holder.

Repurchase proceeds will be paid within seven (7) Business Days from the date on which the repurchase request is received by the Manager.
